Career Objective

To leverage my academic foundation in computer science and hands-on project experience to contribute effectively as a software developer, while continuously learning emerging technologies and growing into a skilled engineer who delivers real-world impact.

Skills

Languages: Python, C, Java, SQL.

Web Technologies: HTML, JavaScript, CSS.

Soft Skills: Analytical Thinking, Problem Solving, Quick Learning.

Projects

AI Placement Analytics & Prediction System | Python , PowerBI

- Built a student placement prediction project using Python and machine learning models like Random Forest, Logistic Regression, and Gradient Boosting to predict placement chances based on CGPA, skills, internships, and aptitude scores.
- Created a Power BI dashboard with multiple pages to visualize placement statistics, salary trends, company hiring insights, and skill demand using exported CSV datasets.
- Added a real-time prediction feature that takes student details as input and shows placement probability and confidence level using the trained ML model.

Disk Cleanup Recommender | Python, Streamlit

- Created an AI-powered disk management tool that analyzes files, recommends safe cleanup actions, and generates detailed storage optimization reports.
- Enhanced system safety through rule-based validation, user approval workflows, and non-destructive file handling.

Soulful — Personal Diary Web App | HTML, CSS, Vanilla JavaScript

- Developed a client-side journaling app with diary, mood tracker, health log, sticky notes, and insights dashboard — all persisted via localStorage.
- Built custom 30-day mood and 7-day health charts from scratch using HTML Canvas API and designed a glassmorphism UI with animated backgrounds, dark/light theme, and draggable sticky notes.

Internships

Cloud Computing (AWS) Jobprep	2025
Devops Jobprep	2025

Education

Annamacharya Institute of Technology and Sciences	2023 – present
Bachelor of Technology in Computer Science – CGPA : 9.41	
Jawahar Navodaya Vidhyalaya	2021-2023
Intermediate(CBSE) – 83%	
Jawahar Navodaya Vidhyalaya	2020-2021
Central Board of Secondary Education – 87%	

Certificates

Hackthon -cynosure	2026
